

EDUCATION

Degree/Certificate	Institute/Board	CGPA	Year
M.Des.	Indian Institute of Technology, Jodhpur	8.03	2024–Present
B.Tech. (CSE)	Mar Athanasius College of Engineering, Kothamangalam	8.14	2017–2021

EXPERIENCE

- **Immersive.IO** (Early-stage startup)
Product Development Intern

Jun. 2025 – Aug. 2025
Chennai, India (Remote)

– Gathered requirements from co-founder brief and owned end-to-end interaction design and front-end implementation of a stylist-facing annotation tool; independent UI decisions on information architecture, table layout, field placement, and export flow for a permutation-based AI sizing model training pipeline.

– Built height estimation prototype translating a published facial-proportion algorithm into a working MediaPipe web component.
- **IQVIA**
Associate Software Developer

Oct. 2021 – Jan. 2024
Kochi, India (Hybrid)

– Contributed interaction and UI improvements to Supply Integrity Management System (SiMS), a B2B enterprise pharma platform embedded in pharma supply chain domain across Amgen, Boehringer Ingelheim, Sandoz, and Takeda; worked in a dev team with no dedicated designer where design decisions defaulted to the BA; proactively identified UX gaps and proposed solutions beyond assigned dev tasks across 6 navigational modules and 20+ screens; received **IQVIA IMPACT Ovation Award**.

– During a development task for batch-approval workflows, independently identified cognitive load caused by ephemeral toast notifications; proposed a persistent status column and communicated the interaction design rationale to the BA; approved and shipped within the same sprint.

PROJECTS

- **LiquidRead**

Jan. – Apr. 2026

Next.js, Gemini 2.5 Flash, Figma, Supabase | *AI Product Design, M.Des. Thesis*

– Designed an adaptive generative UI system rendering the same research paper as a structurally different interface per reader expertise: different vocabulary, section order, information density, and visual components; 5 semi-structured user interviews (30–45 min), 3 user segments, 4 structural findings.

– Developed Research-to-Prompt methodology translating user quotes into traceable AI prompt variables; validated via 26-response survey: 100% of miscalibrated users preferred depth-matched content; designed 7 custom visual components rendered from Gemini JSON with full behavioral logging to Supabase.
- **Aam**
Unreal Engine 5, Figma | VR Usability Engineering

– Pilot study, 3-evaluator Nielsen heuristic evaluation (6 heuristics, severity-rated), accessibility evaluation for colour vision deficiencies, iterative design across 3 versions; Figma prototype rated intuitive (4.0/5) and focused (4.0/5) on Likert-scale questionnaire.
- **ARuler Redesign**
Figma | AR Mobile Usability Study, Android

– Think-aloud usability study with 5 users across 3 tasks; 11 issues documented; 11 evidence-based redesign proposals each mapped to a specific user failure across visual hierarchy, iconography, and spatial feedback.
- **Digimal**
Unity, C#, Figma | AR Interaction Design, Meta Quest

– Persona, information architecture, task flows, and state-based interaction model; navigation designed around a fist-close gesture surfacing contextual actions via directional movement; user testing validated a presence-first XR design approach.

TECHNICAL SKILLS

- **UX Methods:** User Research, User Interviews, Usability Testing, Heuristic Evaluation (Nielsen), Personas, Conceptual Design, Visual Design, Information Architecture, Interaction Design, Rapid Prototyping, Wireframing, User Flows, High-Fidelity Prototyping, Design Systems, Accessibility Evaluation
- **Design & Prototyping:** Figma, Adobe Photoshop, Vibe Coding, Procreate, DaVinci Resolve, Unreal Engine 5, Unity, Blender (basic)
- **AI-Assisted Design:** Figma Make, Cursor, ChatGPT, Perplexity, Google Antigravity (live), AI image generation & prompt engineering
- **Development & Tools:** JavaScript, TypeScript, HTML/CSS, Bootstrap, Angular, ASP.NET (C#), SQL, Python, Next.js, Google MediaPipe, Supabase; Jira, GitHub, TFS

ACHIEVEMENTS

- **IQVIA IMPACT Ovation Award**2022
- **NID DAT Mains 2024:** Graphic Design, All India Rank 272024
